PROFESSIONAL SUMMARY

Frontend Engineer with **4+ years** of experience building and scaling enterprise web applications using React, Next.js, JavaScript, and TypeScript. Specialized in architecture-driven UI development, performance optimization, state management, and application modernization. Experienced in transforming legacy platforms into scalable, maintainable systems while delivering accessible, high-performance user experiences that drive measurable business impact.

PROFESSIONAL EXPERIENCE

Front End Developer - Tata Consultancy Services

Jul 2023 - Present

- Architect and develop scalable React-based enterprise applications for Tata Steel's legacy platform (Compass) and its modernized counterpart (CompassNXT), contributing to a large-scale legacy-to-modern transformation initiative.
- Delivered significant performance improvements by implementing **lazy loading, Webpack code splitting, and bundle optimization**, reducing initial bundle size by **59%** (5.90 MiB to 2.38 MiB) and improving build time by **72%** (165,704 ms to 44,983 ms).
- Optimized complex UI workflows using **React.memo, useMemo, and useCallback**, improving rendering efficiency and application responsiveness.
- Designed reusable component architectures and leveraged **Redux Toolkit** and Context API to build scalable, maintainable, and predictable state management solutions.
- Integrated RESTful APIs and contributed to **Node.js/Express Backend-for-Frontend (BFF)** enhancements, enabling seamless communication between frontend and backend services.
- Supported production applications hosted on **GCP Compute Engine**, performing log analysis and troubleshooting through secure SSH access to identify and resolve issues efficiently.
- Automated and streamlined delivery processes through **Jenkins CI/CD pipelines**, ensuring reliable deployments and stable releases.
- Improved accessibility compliance by implementing semantic HTML, ARIA standards, keyboard navigation, and focus management best practices.
- Collaborated closely with engineering, QA, DevOps, and product teams in Agile environments to deliver high-quality features and releases.
- Mentored developers on frontend architecture, performance optimization, and scalable React development practices while leveraging AI-assisted development tools to accelerate delivery and improve code quality.

Systems Engineer - Infosys Ltd

Aug 2021 - Apr 2023

- Developed responsive and scalable user interfaces using **React, JavaScript, TypeScript, Redux Toolkit, Tailwind CSS, and Bootstrap**, contributing to enterprise web applications across multiple business domains.
- Built reusable UI components and implemented modern frontend development practices to improve maintainability, consistency, and user experience.

- Collaborated with backend teams to integrate APIs and ensure seamless data flow between frontend and server-side systems.
- Utilized working knowledge of **PHP, Core Java, and MySQL** to support backend integrations, troubleshoot issues, and collaborate effectively across the full application stack.
- Contributed to feature development, bug resolution, and application enhancements while following Agile development methodologies and software engineering best practices.

SKILLS SUMMARY

- **Frontend Technologies:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS (SCSS), Tailwind CSS, Material UI, Bootstrap
- **State Management & Architecture:** Redux Toolkit, Context API, Component Architecture, React Hooks, Memoization
- **Performance & Optimization:** Code Splitting, Lazy Loading, Bundle Optimization, Webpack, Lighthouse, Chrome DevTools
- **Accessibility & Web Standards:** Accessibility (a11y), Semantic HTML, ARIA, Responsive Design, Cross-Browser Compatibility, SEO
- **API & Backend Integration:** REST APIs, Node.js (Express – BFF), JWT Authentication, Postman, Swagger
- **Cloud, DevOps & Tooling:** Git, Jenkins (CI/CD), GCP (Compute Engine), SSH, Production Log Analysis, Environment Variables (.env), NPM, ESLint, Prettier
- **Professional Skills:** Problem Solving, Technical Communication, Cross-Functional Collaboration, Ownership & Accountability, Technical Mentorship, Continuous Learning

PERSONAL PROJECTS

- **Movie Matrix** - [View Project](#) | [Source Code](#) - Next.js, React, TypeScript, Tailwind CSS, TMDB API
 - Built a movie discovery platform using Next.js and TypeScript, featuring dynamic search, optimized data fetching, and responsive content exploration
- **Invoice-CRUD** - [View Project](#) | [Source Code](#) - React.js, Material UI, Framer Motion, Bootstrap
 - Built a responsive invoice management application implementing full CRUD functionality with optimized state handling and smooth UI animations
- **Designo** - [View Project](#) | [Source Code](#) - React.js, CSS3 (Custom Pure), Framer Motion, Leaflet
 - Developed a UI-focused React application featuring handcrafted layouts using pure CSS, animation-driven interactions with Framer Motion, and interactive maps powered by Leaflet.

EDUCATION

College of Engineering Guindy, Anna University
B.E. Agricultural & Irrigation Engineering

Chennai, India
Aug 2017 - Apr 2021
